Examiners comment

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

The following is an examiner's statement of **Reasons for Allowance**:

2. With respect to **independent claims 1, 2, 4, 5, and 6** as amended by applicant in the August 8, 2008 amendment in response, and in view of the terminal disclaimer filed September 8, 2008, which is proper timely and has been approved, the Examiner agrees with applicant's arguments for novelty with respect to the amended claims, which begin in the second paragraph on page 16 of the March 17, 2008 amendment and response.

3. Additionally, the Examiner notes that only applicants earlier works which have been terminally disclaimed by the terminal disclaimer noted herein, which was filed on September 18, 2008 meet suggest or show **independent claims. 1, 2, 4, 5, and 6** as amended herein, and since those references have been terminally disclaimed they are no longer available as prior art against the claims of the instant application therefore amended independent claims 1, 2, 4, 5 and 6 claims are considered to be allowable over the prior art of record, because the prior art of record neither discloses nor suggests an MRI apparatus/method/system comprising the complete combination as set forth in applicants amended independent claims. It is the entire combination of the independent claim limitations taken as a whole that constitutes both the novelty and non-obviousness of applicant's claims.

4. The examiner also notes that claimed three was canceled as per applicants August 18, 2008 amendment in response.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

6. Applicant's arguments filed **August 18, 2008** have been fully considered and in view of the detailed amendments made to each of the independent claims as well as the terminal disclaimer filed September 18, 2008 which resolves the remaining double patenting issue with respect to applicants' earlier work, since the terminal disclaimer was timely, has been approved and is proper. The applicant's arguments are persuasive, with respect to novelty and nonobviousness over the prior art of record. The prior art rejections from the office action of March 17, 2008 are withdrawn.

Double Patenting

7. **The double patenting rejections** with respect claims **1-2, and 4-6** from the last office action of March 17, 2008 are rescinded in view of applicant's timely filed terminal disclaimer of September 19, 2008 which is proper and has been approved.

Prior Art made of Record

8. The **prior art made of record** and not relied upon is considered pertinent to applicant's disclosure.

A) Moriguchi et al., US patent application publication 2005/0033153A1 published Feb. 10th 2005, with an effective US priority date of April 25th 2003.

B) Moriguchi et al., US patent 7,042,215 B2 issued May 9th 2006 which corresponds to **Moriguchi et al.**, US patent application publication 2005/0033153A1 published Feb. 10th 2005, with an effective US priority date of April 25th 2003.

C) Hirata et al., **US Patent application publication 2007/0241754 published October 18th 2007.**
